Attention N.Y.A. Students Because of two different orders that have come from the N.Y.A. headquarters within the past week, some confusion has resulted. The first order was a 50% cut in our payroll beginning with Jan. 6, 1942. To accomplish this without taking half the students from the payroll it was decided to take students off in alternate months beginning with those being paid over the longest period of time. Notices were sent to all students who were not to work for January. Since that time an official quota has been set for us that is more encouraging. Some students who were told not to work in January were again told to go back to work. Those who are not to work will be notified each month. All students will receive a proportionate cut spread over the remaining months of the school year.
