### Notice from Placement Bureau:

It has been brought to our attention that some prospective graduates are writing letters of application and sending them out indiscriminately to superintendents. One superintendent has written in complaining concerning a practice which is generally resented by all superintendents. Such a practice not only does the individual applicant no good but it interferes with the chances of all other candidates. All then should adopt this rule: Make no applications in ordinary school systems until definite knowledge is in your possession that an opening actually exists.
