FACULTY AND PROFESSIONAL SUPPORT PERSONNEL LISTINGS

This year's directory information about St. Cloud State University employees was typeset from a computer tape. Each person was asked to complete an Employee Data Record form. Efforts were made to include everyone who had been newly appointed or had completed this form by September 28, 1977. Home addresses and phone numbers were excluded on request. The faculty listing includes part-time faculty and student assistants.

STUDENT LISTING

The directory information about SCSU students was typeset from a computer tape using data supplied by students during spring registration. Students were able to update addresses and telephone numbers by filling out Change of Address forms September 22-28, 1977.

The cutoff date for inclusion in this year's directory was September 28. All students enrolled in at least one daytime on-campus course before September 28 should be listed if they completed the Change of Address form, with the exception of those whose hours are all arranged, such as student teachers and students enrolled in the Denmark program.

Students who change their addresses or phone numbers during the current academic year should complete a Change of Address form at either the Office of Student Life and Development in Atwood Center or the Office of Admissions and Records in Administrative Services Building.

The Family Educational Rights and Privacy Act of 1974 entitles students to restrict the release of directory information. Students who have filed a statement to this effect at the Office of Admissions and Records are not listed in this directory.

TEAM[®] ELECTRONICS

At Team, before you listen... we listen.

We listen to you.
We know how tough it can be when a person tries to put together a component

stereo system.

So, before we sell you anything at Team Electronics, we listen to what you have to say.

And we help you choose exactly the right equipment by using our custom music system planning guide.

One of the first things we'll want to know is the kind of music you like to hear.

If you're really into hard rock, the stereo system or components you buy probably won't be the same as someone who enjoys classical guitar.

Tell us the size of your listening room. It really makes a difference in the size of your speakers and in the power rating of the receiver you choose.

At Team, we listen to your needs and what you expect in stereo and electronic equipment.

After we've heard you out, we'll recommend the right choice from the top name brands in the country.

We listen to our equipment.
Team's most expensive system costs \$50,000. But it's not for sale.

It's the equipment we use to test and measure the performance of every piece of stereo equipment we sell.

Our technicians turn out hundreds of evaluation reports on everything from turntables to tape decks. Reports that are available at every Team Electronics store.

If a product does not live up to its published specifications, you'll never find it in a Team store.

So, if you want the cold hard facts about a certain product, before you spend your money, ask your Team salesperson.

TEAM serves you in over 100 locations. Stop in soon at the one nearest you.

We listen to the latest trends.
At Team, we're very much aware of the newest electronic equipment being produced.

Our people study how well each is performing. In great detail. And how well each is being accepted by the audio experts.

We also keep up with the latest improvements being made in products that have been around for awhile.

Only when these improvements or new innovations meet our high requirements do we consider showing them to you. Because, if they won't measure up to our standards, we know they won't measure up to yours.

We listen to our manufacturers.
Let's face it. In this fast paced business, there are changes being announced every week.

So we depend upon the people who manufacture electronic equipment to keep us up-to-date on what's happening.

Because they're more aware of the latest advancements than anyone.

Our manufacturers know that we sell only the highest quality products. Yet, we're always on the lookout for special values that we can offer our customers. So, we listen very carefully to what they have to say.

We listen to our competition.

At Team Electronics, we work hard to be better than our competition.

And that means we have to know what each of our competitors is offering at all times.

We know, of course, that many of you want to shop around. And we want your last stop to be at Team.

So, no matter what you find down the street, we make sure you find outstanding values like the equipment below at Team Electronics.
