OUR RESPONSIBILITY -

Even a moment's consideration of the tragic European situation must make all Americans realize how fortunate and favored we are as a people. We should indeed be grateful for the advantages which we as individuals have in living under a democratic government. As we enjoy these privileges we should also recognize the importance of assuming our part of the responsibilities and duties which must be shared by all good citizens. The college student plays his part as a good citizen by taking full advantage of the opportunity to learn, to live wholesomely and helpfully with others, and to establish and improve the ideals and traditions which govern college life. The present is the best time to resolve to be a "good citizen."
